

Policy Name: Possible Sick/ COVID-19 Case in Camp

Purpose: It is possible during Camp that a person will develop symptoms that fall under the category of COVID-19. It will be important to isolate this person from the other Campers.

Effective Date: 5/14/21 AK

Updated: Reviewed and revised 7/13/21 AK

Procedures:

1. Work with the Camp Nurse and determine if the symptoms warrant getting an Over-the-Counter COVID-19 test kit.
 - a. Camper (and a family member for care if necessary) will isolate in their cabin until negative results are gained.
 - b. Food will be delivered to the Campers as needed and the Family Bathroom will be relabeled for their use ONLY.
 - i. Family Bathroom Cleaning- Use dedicated cleaning and disinfecting materials to disinfect a potential source area. The cleaning equipment should not be used to clean other areas until they are thoroughly cleaned and disinfected. Wear disposable masks and gloves to clean.
 - ii. If person tests positive, disinfect any surface that person had touched for longer than 15 minutes.
 - c. If the test is negative, the Camper is to remain in isolation until fever free for 24 hours.
 - d. If the COVID-19 test is positive, the Camper and their family will need to leave Camp.
 - e. A Camp Director MUST notify local health officials of any positive COVID-19 test.

Somerset County State Health Center

- f. It is crucial to carry out “contact tracing” immediately to determine the potential or confirmed case’s contacts with other Campers over the previous two or more days. Assessing and informing those with potential exposure is an important strategy for minimizing spread within a group or camp population.

CDC defines close contact as interactions within 6 feet for more than 15 minutes. Contact tracing should be carried out by trained staff (e.g., public health staff, community health workers, trained volunteers) in conjunction with the local health department. However, camp health staff can utilize general principles of contact tracing to BEGIN closely monitoring other potentially exposed individuals.

 - i. Campers that will participate in the initial “contact tracing” will be members of the COVID-19 Policy and Procedure Committee. This information will be shared with Somerset County State Health Center and potential or confirmed contacts.

- ii. Camp Director information has been provided to help with contact tracing.

Camp Director	Email	Cell Number
Tirah Keal	tirahk@gmail.com	267-439-0917

- 2. If a **second** positive COVID-19 case is identified in a different family group- there is the risk that this demonstrates transmission between Campers. ALL remaining Campers will begin the process of closing down Camp and return home.
